

Environmental Sustainability Policy

ESOLCENTRE's Sustainability policy aims to maintain net zero carbon emissions in order to address the global challenges of climate change in the organisation.

ESOLCENTRE.UK is committed to reducing its impact on the environment and contributing positively to sustainability targets.

▪ OBJECTIVES:

- Reducing our impact on the natural environment in the long term
- Continue to manage resources sustainably

▪ ACHIEVEMENTS:

- ✓ Reduced energy, waste and carbon emissions by eliminating hard-copy learning materials and certificates.
- ✓ Raised awareness among our students on ways of reducing carbon print.
- ✓ Reduced transport emissions associated with short and long distance travel by providing virtual learning environment.
- ✓ Commitment to implement climate responsible future strategies.
- ✓ Engagement with students to support our sustainable activities.
